I apologize for the following mistakes introduced in the data set given for the symposium . In order not to disadvantage any one , my solution presented at the symposium was obtained with that data set . But now I will ask you to correct the data set , and send the solution obtained from the new data set :

```
V11 for PHYSETER  (26)  is 1 instead of 0
V11 for KOGIA     (14)  is 1 instead of 0
V10 for ORCINUS   (24)  is 3 instead of 4
V13 for MEGAPTERA (18)  is 4 instead of 5
```
